Pursue gymnastic dreams while you prepare for college success

- *Just released: new financial aid packages, scholarships now available for 2010, 2011*

If you're a trained gymnast with the passion to pursue your dreams or the parent of a uniquely-talented competitor, Kaplan College Preparatory School (KCPS) offers the flexibility to train and compete, while still earning a top-tier college preparatory education.

Rigorous Academic Standards: flexible learning environment

This nationally-recognized, fully-accredited virtual college preparatory program is uniquely structured to meet the needs of highly-motivated student athletes in grades 6-12.

Classes, tests and assignments are all custom-scheduled around each student's personal training, practice and competition demands. Yet the curriculum is as rigorous, goal-driven and fully-accredited as any respected private school, meeting all NCAA requirements.

Top-Tier University Success

The school's claims are certainly backed up by its success rate. KCPS graduates routinely get into top-tier universities like *Purdue, Stanford, Rice, Temple, University of Michigan, University of Miami, Notre Dame, University of Virginia, University of Southern CA, Pepperdine* and many others. Even more impressively, many received scholarships.

Parent Andrea Adler searched long and hard for a school that would meet her standards for son Andrew. "I was looking for an accredited school that offered all the AP courses...honors courses...science courses. I also looked at all the class work before I signed him up. Kaplan's done everything that we wanted for my son. He's going to his first college of choice. He's graduated with honors."

Uniquely Structured: extensive one-on-one support

KCPS's outreach model includes extensive and ongoing one-on-one support from an entire network of teachers, academic coaches and other experts, as well as intense PSAT, SAT, ACT testing preparation and comprehensive college counseling.

Caitlyn Ciakajlo, 2009 graduate, liked Kaplan's combination of flexibility and support. "You can pick what hours you want to work, when you want to do your homework, but you're not allowed to fall behind. I also like that I can get the work done as fast as I want to get it done."

New: scholarships, financial aid packages now available

KCPS strongly believes that no talented child should ever be denied his or her dreams based on a volatile economy. To this end, KVE has just released new financial aid packages for the 2010-2011 school year. Parents can determine their eligibility for financial aid packages by visiting sss.nais.org/parents or calling [xxx-xxx-xxxx](tel:xxx-xxx-xxxx).

Check your financial aid eligibility now:

Through the School & Student Services (SSS) program from the National Association of Independent Schools (NAIS), KCPS will offer an objective process to review financial information and qualify for aid.

Visit sss.nais.org/parents

It's simple to complete online

- Parents can visit SSS's site: sss.nais.org/parents to submit needed information.
- The service will calculate the amount that a family can contribute towards their child's education.
- The decision process takes approximately thirty days and is entirely objective.

Please note: Kaplan Virtual Education (KVE) uses this data to determine a needs-based financial aid award. While KVE is not bound to the level of SSS contribution determined, it serves as a guideline for award process.
