

STEP - IN DIE CUT

"It's not about revolutionary technology..."

...it's about the revolutionary ways iBX applies it...

We're not in the business of selling software or technology... we're in the business of solving the problems that plague today's typical large specialty practices. We apply our full arsenal of tools, technology and – most importantly of all – human expertise - to get your claims out the door faster; simplify forms and paperwork; maximize the reimbursement dollars in your pocket; and protect your interests with legally complete documentation.

From individual services to full-scale packages, we'll gladly provide the level of service that's right for you:

- **Administrative and Information Services** - accounts receivable management, detailed reporting, electronic claims processing, and HIPAA/OIG regulatory compliance
- **Digital Dictation/Transcription Services** - local, regional, national, and international.
- **Document Management Services** - via secure, web-enabled, browser-based applications. Document imaging, data storage and retrieval technologies.
- **Point of Care Application Services** - online order entry/inventory control, handheld wireless PC applications, and interactive forms techno

...to assure your practice **MORE** profitability. **MORE** results."

Discover how iBX can propel your busy practice to the next level. Call now for your complimentary consultation.
